

BENNETT MECHANICAL INSTALLATIONS (2001) LTD. O/A
BENNETT CONSTRUCTION GROUP

Project Supervisor/Superintendent

Overview:

The Bennett Construction Group is hiring Project Supervisors/Superintendent to join our growing team of water and wastewater construction professionals.

Bennett Construction Group has specialized in the Water and Wastewater industry for over forty years. Since 1981, we have stood alone as the only General Contractor in Canada whose singular focus is the construction of Water/ Wastewater treatment and distribution infrastructure.

With offices in Vancouver and Ontario servicing Western and Eastern Canada, over 1000 completed projects and the most skilled management & construction teams in our industry, you can count on Bennett.

As a project site-based role and integral part of the management team, Project Supervisors are responsible for driving the project forward, managing all aspects of the construction and complete project delivery.

Responsibilities:

- Manage project staff and subcontractors to complete projects safely, on budget and on time
- Contribute to contemporaneous records
- Assist in developing lookahead schedules, forecasting upcoming works
- Effectively track changes on site and assist in monthly master schedule updates
- Assist in tracking and costing of project scope changes
- Implement and enforce, in coordination with the CHSO, preventative maintenance, inspections, etc. associated with the Bennett Construction Group's Occupational Health and Safety Program
- Assist in coordination with the Commissioning Agent, all facets of project close-out & deficiency management
- Maintaining and managing As Built Drawings

Skills & Requirements:

- Minimum of 3 years' experience in a leadership role with a General Contractor (foreman or superintendent)
- Related education will be considered an asset (CET, GSC, etc.)
- Proficiency with Microsoft Suite
